Our team of registered, licensed dietitians offers outpatient nutrition therapy to both adults and children. This program provides up-to-date nutrition and lifestyle recommendations based upon your particular diagnosis, along with tips on how to apply them to your everyday life.

Nutrition therapy is available for a wide range of conditions including:

- High cholesterol and high triglycerides
- High blood pressure
- Failure to thrive
- Digestive diseases
- Food allergies
- Cancer
- Pre-diabetes
- Overweight and obesity
- Pregnancy
- Tube-feeding management

What to Expect When You Meet With One of Our Dietitians

- One-on-one, individualized, nutrition therapy
- Professional review of current eating and lifestyle habits
- Evidence-based nutrition treatment for your particular diagnosis
- Assistance with setting realistic goals
